Subject: Request for Temporary Virtual Machine Access – Cybersecurity Mini-Project

Dear Lab Administrator,

I hope this email finds you well.

I am writing on behalf of Group 4, Semester 5 Informatics students currently preparing our cybersecurity mini-project. For this project, we require temporary access to a Virtual Machine (VM) in the university lab to conduct security testing and network simulations in a controlled environment.

We request access for a total of 4 users (group members) starting from Monday, 6 October 2026, until 20 October 2026. Having access to this lab environment is essential for us to execute our project configurations safely without affecting external networks.

Please let us know if you need any further information or documentation regarding our project scope and team details.

Thank you very much for your time and assistance.

Best regards,

Nayunda Krisna

Semester 5 Informatics Engineering Student
